Sharath Kumar A

Backend-Focused Full-Stack Developer

SharathKumar3113@gmail.com | +91 74115 16558 | Bengaluru, Karnataka | LinkedIn | GitHub | Portfolio

Professional Summary

Backend-focused Full-Stack Developer with 3+ years of experience delivering multi-tenant ERP, SaaS, and cloud-telephony applications using JavaScript, React.js, Node.js, Express.js, SQL, Sequelize, and AWS. Improved API latency by 70%, data-retrieval performance by 40%, and supported 50+ production releases across secure, role-based business systems.

Technical Skills

Languages: JavaScript (ES6+), SQL, Java
Frontend: React.js, Redux, React Query, HTML5, CSS3, Material UI, responsive design
Backend: Node.js, Express.js, REST APIs, GraphQL, WebSockets, Sequelize ORM, JWT authentication, RBAC, middleware, cron jobs
Databases: MySQL, PostgreSQL, MongoDB, schema design, migrations, indexing, query optimization
Cloud: AWS (EC2, Lambda, RDS, API Gateway, S3, SES, CloudWatch, IAM, VPC, Route 53)
DevOps: Docker, PM2, Nginx, Jenkins, GitLab CI/CD, Git, GitHub
Tools & Concepts: Postman, Jira, Figma, API integration, authorization, performance optimization

Professional Experience

Full Stack Developer — **Nov 2024 – Present**
Bizzhub Workspaces — *Bengaluru, India*

- Delivered backend and full-stack functionality across 20+ multi-tenant ERP modules, including contracts, invoicing, workflows, visitor management, leave, and attendance, using React.js, Node.js, Express.js, Sequelize, and MySQL.
- Reduced Leave Management API latency by 70% (approximately 1 s to 300 ms) by restructuring queries, removing redundant fetches, and parallelizing independent operations; extended the approach across six role-based dashboards.
- Improved data-retrieval performance by 40% through relational schema, migration, and indexing changes supporting search, filtering, pagination, exports, audit trails, and approvals.
- Implemented JWT authentication, RBAC, screen-level permissions, center-scoped access, rate limiting, and request hardening across business workflows.
- Deployed and operated Node.js services on AWS EC2 with Docker, PM2, and Nginx; integrated S3, SES, and IAM, migrated email delivery from SendGrid to SES, and completed 50+ releases.

Software Engineer — **Nov 2023 – Oct 2024**
Skylux Inc — *Bengaluru, India*

- Integrated Genesys Cloud IVR workflows and redesigned call routing, improving handling efficiency across 5,000+ monthly calls.
- Developed a Visual Voicemail solution for healthcare workflows using Node.js, MongoDB, Genesys Cloud, and speech-to-text, processing 10,000+ monthly voicemails with high transcription accuracy.
- Delivered three React.js, Node.js, and PostgreSQL SaaS applications with real-time dashboards and secure REST APIs; automated Jenkins/GitLab CI pipelines, reducing releases from hours to minutes.

Software Engineering Intern — **Feb 2023 – May 2023**
LTIMindtree — *Remote*

- Completed enterprise training in Java, OOP, SQL, MySQL, HTML, and Git while resolving application defects and delivering assigned development modules.

Selected Project

Dynamic Portfolio Dashboard | React.js, Node.js, Express.js, React Query, Cheerio — Live | GitHub

- Built a responsive stock-portfolio tracker with 15-second market-data refreshes and in-memory caching by integrating Yahoo Finance and Google Finance data.

Education & Certifications

B.E., Electronics and Communication Engineering — **2019 – 2023**
Global Academy of Technology, Bengaluru — CGPA: 8.5/10

Certifications: AWS Fundamentals; Full Stack Web Development; Accenture Developer Virtual Experience
